Introducing Canadian Child Care Federation's Policy Knowledge and Response Network (PKRN)

PKRN is a network designed to enhance the ability of the CCCF and its members to work effectively and collaboratively on policy issues and to promote community learning.

All CCCF members are encouraged to participate in PKRN in order to make the network strong and effective.

PKRN is available at the following address: <http://policy.cccf-fcsge.ca/>. Choose the language of your choice to navigate the network. Now you have arrived at the public site. This site lists upcoming policy-related events and provides a brief description of the Policy Knowledge and Response Network.

- The Board of Directors and Member Council have access to the **Members Site** by clicking on the **Login tab on the public site** (listed above).
- **Board of Directors:** use the CCCF's **username and password**, which is on the attached list.
- **Member Council:** use the **username and password for your affiliate organization** on the attached list.
- When you first arrive on the **Members Site** using the username and password, follow the instructions for getting a **personal account**. Then in your subsequent visits, you will login as yourself with your **personal user name and password**.

Why have a personal account?

The personal account allows you to choose your options under:

- **My Contact Details:** By providing your contact details, you can allow other members to contact you or alternately, you may limit your contact information to the CCCF office. However, remember, that if we are building a strong mutual support network, it is often very helpful to reach another member directly.
- **My Subscriptions:** The options here allow you to designate what kind of topics you are particularly interested in. By setting your subscriptions, you will receive email notification when something new on those specific topics appears. In addition, you can determine how frequently you receive these messages (instantly, daily, weekly or monthly).

You can change your contact details and your subscriptions whenever you want.

This is your policy network!

Use PKRN to keep up-to-date!
